

Are you interested in improving your family life? ¿Está interesado en mejorar su vida familiar?

If you are, then you might be eligible for the
Free Couple or Family Check-Up

What:

The Check-up is part of a research study. It involves two family meetings to talk about the health of your family relationships. We are asking families to give us feedback on how we can improve the Check-Up and make it most helpful.

At least 2 partners or family members who live in the same house must be involved.

Both people must be able to read and write English.

We are especially interested in hearing from Latinos and African Americans.

Where:

The Check-Up can be held at Memorial Hospital or at our offices on the Butler Hospital campus depending on your convenience. Transportation can be provided.

Benefits:

You will receive a confidential consultation with a family behavior specialist. We will compensate you for your time.

If you are interested,
please contact Rita Rossi at
(401) 455-6377

Affiliated with Butler Hospital,
Brown University, and Memorial
Hospital
